25X1

1. In connection with economy in the use of metals in short supply, an order of the Ministries of Urban and Settlement Construction, Industrial Construction, and Communal Economy published on 6 February 1954, laid down restrictions in the use of lead for repairing and insulating water pipes and waste pipes.
2. This order prescribes the use of concrete, asbestos-concrete and aluminum scrap instead of lead, and prohibits the employment of lead except in special cases such as at the intersection of waste pipes with the main communication arteries (sic).
